Feedlot Trade Opens Quiet, Tone Strong

Amarillo, Sept. 8 (F-S) — Texas Penhandle and Western Oklahoma feedlot trade very slow in the Panhandle area Tuesday. Not enough slaughter steers or heifers sold for a market test. Feedlots reported fair interest and inquiry from buying sources. Sales on 200 slaughter steers and no heifers, 8500 head sold for the week to date. Slaughter steers: pen good and mostly choice 2-3, 70-85% choice, 1075 lb. 58.50.

Dodge City, Sept. 8 (USDA) — Western Kansas feedlot trade quiet. No sales slaughter cattle confirmed. Inquiry light. Demand very light. Sellers resisting lower bids and pricing cattle firm to higher.

Dee Moines, Sept. 8 (F-S) — Iowa Southern Minnesota Direct Cattle Sales for Monday 2,500. Live sales slaughter steers and heifers steady to weak. Trading on Monday slow. Demand moderate. Slaughter interest light to moderate. Slaughter steers: mostly choice 2-4 1000-1200 lbs. 68.75-69.25, mostly 69.00-69.50. Slaughter heifers: mostly choice 2-4 800-1050 lbs. few 08.00-07.00. Carcasses: heifers steady to \$1.00 lower. Weight only: steers, mostly choice 2-4 600-900 lbs. 98.00-94.50. Weight only: heifers, mostly choice 2-4 600-700 lbs. 99.00-91.00, weights under 550 lbs. discounted \$0.50 to \$0.80 per cwt.

Omaha, Sept. 8 (USDA) — Nebraska Feedlot Sales 3,200. Live sales: 60 Pct. of volume. Steers and heifer prices fully steady, with demand somewhat improved from late last week. Steers: good to mostly choice 2-4 1050-1200 lbs. 38.00-40.00. Heifers: good to mostly choice 2-4 825-1050 lbs. 08.00-07.50. Most cattle quoted delivered to packing plants with weighing conditions equivalent to 3 Pct. penull shrink. Dressed hams: steers and heifers fully steady. Weight-only steers: good to mostly choice 600-900 lbs. mostly 84.00, several lots mainly choice 700-900 lbs. to 95.00, occasional early sale to 83.00. Weight-only heifers: good to mostly choice 600-700 lbs. 88.00-90.00, few 90.50.

THE BARFIELD SALE NINTH EDITION

Saturday, October 15, 1983 Immokalee, Florida
Seedstock Sale - 10 A.M. Afternoon Bull Sale - 2 P.M.

The Barfield Sale of superior Beefmasters is heading into its ninth straight Edition. Traditionally, it has produced the brightest stars and future stars in the breed - and with it, some of the best investments in the cattle industry. It has also put a bunch of Beefmaster bulls in good commercial herds.

Our Ninth Edition cattle are cast from the same mold. They represent a good balance of proven genetics, excellent performance and highly marketable bloodlines. They'll produce - and they'll sell!

The Ninth Edition features

- 6 - Herd Sire and Herd Sire Prospects, Ages Two, Three and Four
- 32 - Three-In-Ones, Including 12 solid Herd Sire Prospects At The Sides of Cows and 20 Heifer Pairs
- 7 - Bred Heifers
- 5 - Open Heifers
- 75 - Afternoon Sale Bulls, Mostly 18-24 Months Old, With 10-12 Older Bulls From Our Upgrading Program.

THE BARFIELD SALE, Saturday, October 15, 1983

Corn Crop Seen 48% Below Last Year, 16% Decline During Past Month, Beans Down 14%, Sorghum Off 43%

Washington, Sept. 12 (USDA) — The Sept. revised crop estimates shows corn for grain production forecast at 4.39 billion bushels (112 million metric tons), down 16% from Aug. 1 forecast and 48% below last year's record high. The 90% confidence interval for this production is 4.01 to 4.77 billion bushels.

Sorghum grain production forecast at 480 million bushels (12.2 million metric tons), down 10% from last month and down 43% from last year.

Feed grain production (corn, sorghum, oats, and barley combined) expected to total 145 million metric tons, down 44% from 1982.

Soybean production forecast at 1.08 billion bushels (85.5 million metric tons), down 14% from 1982 record high. The 90% confidence interval for this production forecast is 2.38 to 2.46 billion bushels. Winter wheat forecast at 1.98 billion bushels (53.8 million metric tons), 8% less than 1982. Durum wheat production forecast at 72.9 million bushels (1.98 million metric tons), down 51% from last year. Other spring wheat production at 3.88 million bushels (9.78 million metric tons), 38% below last year record high.

Cozarts Five C's Ranch To Hold 2nd Simmental Sale, Sept. 24

Cozart's Five C's Ranch along with guest consignor, Dale West Simmental will hold their second sale, September 24 at 1 p.m. The sale will be at the Cozart's ranch located ten minutes North of Fort Worth on I-35. Take the Haslet Road exit, turn right 1/4 mile, then turn right again and follow ranch signs.

Selling will be 65 lots including 25 fullblood Simmentals, 35 purebred Simmentals and 10 three quarter Simmentals. Featured in this selection will be 16 pairs, 7 open heifers, 5 Big-N-Tall bulls (approximately 18 months old), and 8 three-in-one packages. Most of the female offering is bred to Signal, ABC Signal, and L7 Big-N-Tall.

For more information, contact: Gene Cozart, P.O. Box 4051, Fort Worth, TX 76101, 817/379-6285 or Dale West, 817/325-0734.

Fort Worth Stockyards Announces Special Sale September 29
Fort Worth, Texas-The Fort Worth Stockyards has announced a series of Special Stocker-Feeder Shows and Sales to be held in 1983. The sales will be held the last Thursday each month thru October and the final sale will be held November 17, 1983.
Sale dates are September 29, October 27 and November 17.
Judging of show cattle will begin at 7:30 a.m. on show and sale days and odd lots will start selling at 9:00 a.m. Prize winners will begin selling at 10:00 a.m.
There will be show classes for Hereford steers and heifers, Angus steers and heifers, and crossbred and exotic steers and heifers. Steer and heifer classes are shown in lots of 10-19 head and 20 head and more. Bulls may be shown with steer classes.
These special shows and sales have been held for many years at the Fort Worth Stockyards and attract buying power that insures competitive prices for consignors. The sales attract cattle in sufficient numbers and uniform quality for buyers to easily fill their needs. For information and to make con-

2nd Annual Ranch Sale

Cozarts' Five C's Ranch

Guest Consignor - Dale West Simmental

Fort Worth, Texas

Sale Particulars

SELLING 65 LOTS. This offering includes 25 Fullblood Simmentals, 35 Purebred Simmentals, and 10 Three Quarter Simmentals from the Five C's Ranch, Fort Worth, and Dale West Simmentals, Mineral Wells. Featured in this selection will be 16 pairs, 7 open heifers, 5 Big-N-Tall bulls (approximately 18-months-old), and 6 three-in-one packages. Most of the female offering is bred to Signal, ABC Signal, and L7 Big-N-Tall.

Cozart's Five C's Ranch initiated an official calfhood vaccination program in 1977 and is effective as of this date. Dale West Simmental received his certification of a brucellosis free herd in June of 1983. Please refer to catalog for information on individual lots.

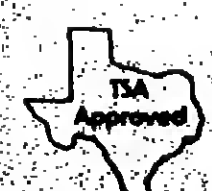

SALE SITE. The sale will be held at the Five C's Ranch located ten minutes North of Ft. Worth. I-35W North to Haslet Road exit, turn right 3/4 mile, then turn right again, and follow signs to the ranch.

SALE TIME. Viewing of cattle begins at 10:30 a.m. with lunch served at 11:30. Sale will begin promptly at 1 p.m.

TERMS & CONDITIONS. Cattle will be sold under the terms and conditions recommended by the American Simmental Association. This sale is approved by the Texas Simmental Association.

AUCTIONEER. Joe Mitcham.

Angus Ranch will hold a fall dispersal, September 26 at the ranch near Paluxy, Texas.

This sale will feature numerous females from the heart of the Deep Down program plus the get and service of Dr. Spook, Pine Drive Big Sky, Liberty Patriot 1, Elnora Senator, Advantage and Angus Acres Bandolier 78K. Also in the sale are several big full-aged bulls and many quality full calves will be split from their dams.

For more information, contact Tom Burke or Berale Schaefer, Smithville, MO 64089, 816/832-0811 or Dale Overpeck, Route 2, Bluff Dale, TX 76428, 817/823-8823.

M & M Ranches To Liquidate Cattle & Equipment, October 8

M & M Ranches of Hawkins, Texas will hold a complete dispersal of their cattle and equipment on October 8 at the ranch. Cattle will sell at 12 noon and the equipment starts at 10 a.m. To get to sale go East on Hwy 60 to Jarvis College, right one mile to ranch entrance.

Selling will be 127 females (some with calves at side) including Simmental, Simbrah, Brahmanstein, F1 Bredford and all ranch equipment. This is a certified Brucella free herd.

For more information, contact Gayle Ingram, sale manager, Box 579, Quitman, TX 75783.

Palface Heifer Sale Will Be Sept. 17

The 100 heifers to be offered at the Palface Ranch heifer sale on September 17 have been carefully selected on the basis of performance, pedigree and individual quality for the potential to improve any breeder's herd, according to Mike Levi owner of the ranch.

In addition to the quality of the heifers offered, the buyers will have the right to same and breeder's cartilages from eleven of the top herd sires of the Red Strangus breed. These heifers are from the three most popular lines of the breed, all based on the original Oscar 11/7 bull.

In addition to the semen rights to all of these bulls, buyers will have the

right to a guaranteed pregnancy to the great 77/6 bull, Certified Meat Sire, this bull is believed to be a first in the cattle industry.

Bale headquarters will be the Wyndham Southpark Hotel, located at the corner of IH-85 South and Highway 71 in Austin. For reservations call (512) 448-2222 or Mike Levi at (512) 264-1711. For further details, or a catalog for the sale contact: Palface Ranch, Rt. 1 Box 19, Episcopiwood, TX 76669 (512)

264-1711 or Syler Sales Mgt., Inc., Rt. 2 Box 85, Burton, TX 77885 (409) 289-4400.

Hides & Offal

North Brunswick, N.J., Sept. 12

(USDA) - The estimated value of the and Offal from the average 1,000 pound slaughter steer for Monday, September 12, 1983 is \$6.40 per 100 pounds in weight, which is down .03 from Friday.

READ THE CLASSIFIED

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION NOVEMBER 8, 1983

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 91 proposes a constitutional amendment which requires a county with a population of 80,000 or more to be divided into not less than four nor more than eight justice of the peace precincts. A county with a population of 18,000 or more but less than 80,000 shall be divided into not less than two nor more than five justice of the peace precincts. A county with a population of less than 18,000 shall be designated as a single justice of the peace precinct or, upon a finding of necessity by the commissioners court, shall be divided into more than one justice of the peace precinct but not more than four. The amendment provides further, that in any precinct in which there is a city with a population of 18,000 or more, two justices of the peace shall be elected. The amendment allows a justice of the peace, constable or commissioner to continue in office until the expiration of his term, although a change in precinct boundaries results in the officer no longer being a resident of the precinct for which he was elected or appointed and allows a justice of the peace or constable to continue in office until the expiration of his term even though a change in precinct boundaries results in the abolishment of the precinct or more than one justice of the peace or constable serving the precinct. Vacancies in the office of justice of the peace or constable that result from a precinct boundary change shall be filled by the commissioners court until the next general election. The amendment would take effect on January 1, 1984, and counties with populations of less than 80,000 and with more than four justice of the peace and constable precincts would have until January 1, 1987 to comply with the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing fewer justices of the peace and constables in counties with a population of less than 80,000 and providing for continuous service by justices of the peace, constables, and county commissioners when pre-

cinct boundaries are changed."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 105 proposes a constitutional amendment which would limit a homestead in a city, town or village to a lot or lots amounting to not more than one acre or more, together with any improvements on the land. The constitutional requirement that, at the time of designation, an urban homestead not exceed ten thousand dollars in value without reference to the value of any improvements on the land would be eliminated.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment replacing the limitation on the value of an urban homestead with a limitation based on area."

PROPOSITION NO. 3 ON THE BALLOT

Senate Joint Resolution 1 proposes a constitutional amendment that authorizes the Legislature to enact legislation that permits representative associations of agricultural producers to collect refundable assessments on their product sales to be used solely to finance programs of marketing, promotion, research and education relating to those products. It provides, further, that adoption of the proposed constitutional amendment will bring into effect Senate Bill 607, Acts of the 88th Legislature, Regular Session, 1983, with rejection of the amendment resulting in Senate Bill 607 having no effect.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment providing for the advancement of food and fiber production and marketing in this state through research, education, and promotion financed by the producers of agricultural products."

PROPOSITION NO. 4 ON THE BALLOT

House Joint Resolution 90 proposes a constitutional amendment which authorizes the Legislature to enact laws to provide for the succession of members of the Legislature in the

event of enemy attack and allows the suspension of procedural rules imposed by the Constitution in the event of, or immediate threat of, enemy attack. The amendment empowers the Governor, after consultation with the Speaker of the House and the Lieutenant Governor, to suspend the constitutional requirement that the Legislature hold its sessions in Austin and allows the suspension of procedural rules by the Governor issuing a proclamation in which the House of Representatives and Senate concur by resolution approved by a majority of the members present. Suspension of the constitutional rules may not exceed a period of two years under a single proclamation; however, the Governor may renew a new proclamation concurred in by the House of Representatives and the Senate through a resolution approved by a majority of the members present.

The amendment will appear on the ballot as follows: "The constitutional amendment authorizing provisions for suspension of certain constitutional rules relating to legislative procedure during those disasters or during immediate threat of enemy attack."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that authorizes the Legislature to enact legislation providing for the use of the permanent school fund and income from the permanent school fund to guarantee bonds issued by school districts. The amendment provides, further, that the Legislature may appropriate part of the available school fund for administration of the permanent school fund or of a bond guarantee program established pursuant to the amendment.

The constitutional amendment will appear on the ballot as follows: "The constitutional amendment authorizing use of the permanent school fund to guarantee bonds issued by school districts."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 1 proposes a constitutional amendment which would permit the Legislature to provide for the garnishment of wages to enforce court-ordered child support payments. The gar-

nishment remedy would not be available for other purposes. The proposed amendment will appear on the ballot as follows: "The constitutional amendment allowing the Legislature to provide for additional remedies to enforce court-ordered child support payments."

PROPOSITION NO. 7 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that authorizes the Veterans' Land Board to provide for, issue, and sell general obligation bonds of the State of Texas in an amount not to exceed \$800 million to provide financing to veterans of the state. The amendment requires that three hundred million dollars of the state bonds be dedicated to the Veterans' Land Fund. The Fund is to be used to purchase land to be sold to veterans under such terms, rules and regulations as may be authorized by law. The amendment creates the Veterans' Housing Assistance Fund and requires that \$500 million of the state bonds authorized by the amendment be dedicated to the Fund. The Veterans' Housing Assistance Fund will be utilized by the Veterans' Land Board for the purpose of making home mortgage loans to veterans for housing within the state and for the administrative costs of administering the fund and issuing the bonds. The amendment provides, further, that if there is not money in either the Veterans' Land Fund or the Veterans' Housing Assistance Fund available for payment of principal and interest on the general obligation bonds issued pursuant to the amendment, then money coming into the Treasury in each fiscal year is appropriated in an amount sufficient for payment of principal and interest due in that fiscal year.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment for financial assistance to veterans and to authorize the issuance of \$800 million in bonds of the state to finance the Veterans' Land Program and the Veterans' Housing Assistance Program."

PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 17 proposes a constitutional amendment that authorizes the Legislature to enact laws which would allow a city or town to expend public funds to relocate or replace sanitation sewerage laterals on private property if done in conjunction with the replacement or relocation of sanitation sewer mains serving the property. The amendment requires that the law authorize the city or town to affix a lien on the private property with the consent of the owner, to cover the costs of the replacement or relocation of the sewer laterals on the

property. The lien may be enforced until five years have expired since the date the lien was affixed. The amendment provides, further, that the law require that the costs of the replacement or relocation of the sewer laterals on the private property be assessed against the property with a period not to exceed one year and at an interest rate provided by law. The proposed amendment will appear on the ballot as follows: "The constitutional amendment to permit a city or town to expend public funds and levy assessments for the replacement or relocation of sanitation sewer laterals on private property."

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to authorize taxing units to exempt from taxation property of certain veterans' and fraternal organizations."

PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 70 proposes a constitutional amendment to authorize the Legislature to provide, by local or general law, a method by which judges of statutory courts with probate jurisdiction may be assigned to any other statutory court with probate jurisdiction and to any constitutional county court in any county in this state.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for reassignment of judges of statutory probate courts to other statutory county courts with probate jurisdiction and to county courts."

PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 17 proposes a constitutional amendment that authorizes the Legislature to enact laws which would allow a city or town to expend public funds to relocate or replace sanitation sewerage laterals on private property if done in conjunction with the replacement or relocation of sanitation sewer mains serving the property. The amendment requires that the law authorize the city or town to affix a lien on the private property with the consent of the owner, to cover the costs of the replacement or relocation of the sewer laterals on the

property. The lien may be enforced until five years have expired since the date the lien was affixed. The amendment provides, further, that the law require that the costs of the replacement or relocation of the sewer laterals on the private property be assessed against the property with a period not to exceed one year and at an interest rate provided by law. The proposed amendment will appear on the ballot as follows: "The constitutional amendment to permit a city or town to expend public funds and levy assessments for the replacement or relocation of sanitation sewer laterals on private property."

Haralson Brothers Brangus To Be Dispersed Oct. 7 In Lampasas

Haralson Brothers will disperse their Brangus herd on Friday, October 7 at the Lampasas Cattle Auction in Lampasas, Texas. The sale will start at 10 a.m.

There will be 180 lots of cattle including 64 pairs, 50 bred cows, 34 bred heifers, 21 yearling heifers, 20 yearling bulls, 7 two-year-old bulls, and 6 herd sires. The offering features the breeding of Tom-Tom, Rocky Joe, Oscar, FW Oscar 1203, and Nomad of Riverby 208.

Sylvester Sales will manage the sale and Gerald Bowie will be the auctioneer. For more information, contact: Sylvester Sales, Route 2, Box 36, Burton, TX 77895, 408/289-4400, or Gary Hyatt, Route 1, Box 158, Lampasas, TX 77650, 512/666-2111.

West Coast Hosts National Brangus Show

As time for the 1983 Brangus National Show and Sale of Merit draws near, anticipation of the event spreads throughout the Brangus breed. Dates for this national event are set for September 23-24, 1983, at the Los Angeles County Fair in Pomona, CA.

The West Coast and Southwest Brangus Breeders' Association in cooperation with the International Brangus Breeders' Association (IBBA) will be sponsoring the show and sale.

Friday has been set aside for conducting association business with an executive committee meeting beginning at 8:00 a.m., followed by a meeting of the IBBA Board of Directors at 10:30 a.m. Concluding the activities on Friday at 3:30 p.m. will be the National Sale of Merit in addition to a Hawaiian Luau at the home of Mike and Susan Christian in Anaheim, CA.

The National Show of Merit will get kicked off at 9:00 a.m. celebrated Saturday with Jim Williams, Hungerford, TX.

Oklahoma Brangus Breeders Hold 19th Annual Sale In Tulsa

The 18th Annual Production Sale of the Oklahoma Brangus Breeders' Association was held August 14 in Tulsa, OK. Fifty-five lots brought \$88,876 to average \$1113 with 54 bulls going for \$2220 and the 54 females \$1083.

Top selling bull was a June 18th son of BCR Timber Too that brought \$2800 from B-D Brangus, Miami, Okla. Farm was the consignee. Judd Head at Pomona, KS, bought the next lot selling bull at \$2000. This was a March 1881 son of Brinks Carson 8800 signed by Jack Douglas.

In the female offering, Judd Head took home the top sale with a March 1881, a three-year-old May bull calf at side for \$1700. Wheatbelt farms was the consignee. Selling for \$2000 was L&L Ma 1700, a 1980 model Brinks General's daughter with bull calf at side. This is a daughter of Beeson Brangus and JPB Enterprises of Waurika, OK. Farrington Livestock managed the sale and Gerald Bowie was the auctioneer.

Broken Arrow Brangus Production Sale Scheduled For Oct. 1

Broken Arrow Brangus will hold their Production Sale, October 1 at the Regional Convention Center in Sulphur Springs, Texas. The sale will start at 1 p.m.

The offering includes three donor cows, four weaned calves by King, prospect, and Extra, five pregnant recipients with service sires Eagle of Brinks and Pecos Lad, 24 pairs, and 20 bred females.

For more information, contact: Pierce Sales Company, P.O. Box 807, Bellville, TX 77418-0807, 408/865-9104.

SANTA GERTRUDIS BREEDERS INTERNATIONAL
BOX 1257
KINGSVILLE, TEXAS 78363
AC 512 592-9357

The Alabama State Gertrudis Association Field Day, hosted by David Abrams' Mountain View Farms, was the best attended field day I have ever seen. They had over 450 people go through the serving line. The morning program was a Santa Gertrudis College of Knowledge that used live cattle to demonstrate the proper selection of bulls to improve your cow herd. The program closed by viewing local commercial cattle with their Santa cross calves at side. Bob Wasson made an excellent presentation on the use of Santa

No Screwworms For 12 Months In Texas, Milestone

The Texas livestock industry has achieved a milestone in its continuing battle relating to animal health: this state has as of Aug. 31 gone 12 months without a confirmed screwworm case within its borders. That's the first time that has happened since man first started raising livestock centuries ago in what is now Texas.

Just a decade ago, about 100,000 cases of screwworms were reported yearly by cattlemen in this state. Screwworms live in living flesh of animals, and at one time cost the livestock industry \$100 million annual-

ly. "The success of the screwworm eradication program in Texas is a tribute to the thousands of breeders and producers who cooperated by voluntarily giving their time and money, as an excellent example of what private industry and government agencies can do when they work together," said John W. Holcombe, executive director, Texas Animal Health Commission, Austin, said.

And while it is a time to celebrate, it is also a time to continue to be on the watch for possible screwworm infestations. U. S. Department of Agriculture officials at the fly laboratory in Mexico report that submission of possible screwworm samples this year is running behind a year ago.

Sample submission is a year-round chore. The only way in which government workers can know of possible screwworm outbreaks is via the submission system. An undetected case of screwworms can spread rapidly, but is essential that producers throughout the state sent in possible screwworm samples to be identified.

The Texas screwworm eradication program began on Valentine's Day 1968 in Austin when an airplane dropped sterile screwworm flies in a demonstration what might be done in combat that pest.

In the ensuing years, livestock producers donated more than \$3.5 million of their own money to the program worked hand in hand with government personnel in setting up the system that led to eventual eradication of the pest from this state.

A sterile screwworm fly plant was built at the old Moore Air Force Base Mission with producer's money, and many as 200 million sterile screwworm flies a week were air-dropped in strategic areas in Texas. The sterile flies would mate with native populations, but no offspring would result. About three dozen airplanes were part of the screwworm air force.

Although the state was declared officially screwworm-free in 1966, sporadic outbreaks of the pest continued to occur. All of them were eradicated.

It became apparent that to have Texas free of screwworms an eradication program would be needed in Mexico. Mexican livestock producers are a week were air-dropped in strategic areas in Texas. The sterile flies would mate with native populations, but no offspring would result. About three dozen airplanes were part of the screwworm air force.

Heifers: medium frame no. 1, 270-390 lbs. 54.00-57.00, late 58.00-59.00; bulk of sales 750-850 lbs. 48.00-54.00, delivered 745-800 lbs. 54.00-58.00.

Mid-Coast Junior S. G. Members Hear It From Vet

(CONT. FROM PAGE 13A)

The show box included bailing gun, stomach tube, drench gun, calfs hoist, and an antibiotic. He cautioned juniors never to trust an animal before consulting a veterinarian.

Juniors also learned some of the finer points of selection in show heifer from a panel presentation and demonstration by Joe McDaniel, Simon Peter Sand and Sam Jacoby, Nine Bar Ranch, and Johnny Carleton, Louisa FFA.

McDaniel warned juniors to be sure and check the feet and legs explaining that they would get worse when the heifer went on feed.

Stuph & Thangs

(CONT. FROM PAGE 1A)

TV grain markets, both futures and cash, got a shove higher with the latest estimates of the crops released this week and everybody seems to be trying to find some way to punish the Soviets for shootin' down that passenger plane without makin' 'em really mad and our allies have got a eye on how they can make a few bucks without really doin' anything drastic and hurtin' their sales to the Russians.

TV usual talk in Congress is how to ease those budget deficits without bein' unpleasant by reducin' spendin' or increasin' taxes and as a result we can relax. We'll get more taxes, the only question is how much more.

Congress will perform just about as usual, less more hot air will be generated in Washington, as if we ain't all had about all the hot air we can stand. This week the breeders and meat trade continued to yo-yo around and the financial experts are all tryin' to figure out some new time crop games to gamble on and the most ridiculous of these has been betting on the Dow Jones Average, or the Standard & Poor's 500, and how anyone can describe these things as "investments" is beyond our feeble mind to understand. So, we all might just as well relax and enjoy it. There ain't likely to yield any great big surprises, good or bad.

Ever time, The Editor: P.S.: Uncle Dink notes where the House of Representatives had to back up on that Social Security Bill to try and bail this business out. Seems some of them export spellers they are staffed with made a mistake and recorded th' thang as "Social Security" where they meant Social Security, Ho, Hum! — Thassall, Brothers!

Feeders \$2-\$4 Higher At Amarillo Monday

Amarillo, Sept. 12 (F-S) — Receipts 8,000. Trading fairly active under good demand. Feeder steers 2.00-3.00 higher, heifers 2.00-4.00 higher. Slaughter cows steady, bulls firm. Quality attractive with many medium and large frame no. 1 country cattle on offer. Feeder steers: medium and large frame no. 1, few 650-68.75, lot 408 lb. 69.70, 400-500 lb. 61.00-66.75, bulk 63.00-65.00, 600-700 lb. 57.50-59.50, 700-800 lb. 56.50-59.00, 800-900 lb. 54.00-58.00. Medium and large frame no. 1-2: 400-500 lb. 59.50-62.50, 500-600 lb. 57.00-59.00, 600-800 lb. 54.00-57.50, 800-900 lb. 51.25-55.25. Holsteins: large frame no. 1, 575-900 lb. 39.25-40.50. Feeder heifers: medium and large frame no. 1, 800-400 lb. 55.00-58.25, 400-500 lb. 50.00-55.00, 500-600 lb. 48.00-52.50, 600-700 lb. 47.75-52.50. Medium and large frame no. 1-2: 800-500 lb. 47.00-49.00, 400-700 lb. 46.50-51.25, 700-800 lb. 45.25-48.50. Slaughter cows: utility 2-3 85.50-90.50, mostly 36.00-39.00; cutters 64.00-67.00. Canners and low cutters 60.00-65.00. Suller yield grade 1-2 1280-1800 lbs. 46.50-52.00; low boning bulls 41.50-46.00.

Double Circle Santa Gertrudis To Sell September 23

Franklin, Texas — Richard Hood, owner of Double Circle Ranch at Franklin has announced plans for a Santa Gertrudis Production Sale September 23, 1983. The sale will be held at the Port City Stock Yards in Brenham, Texas. This location and date were selected because of the Washington County Fair being held then. Judging of open Santa Gertrudis Cattle will start at 8:00 AM in Brenham on Friday, September 23 followed by the sale at 1:00 PM. The Junior Santa Gertrudis Show will be Saturday September 24th.

Selling in the sale will be approximately 100 head of quality Santa Gertrudis with the main portion being 3-in-1's. The majority of the calves will be by Mayfair 59. The remainder of the calves will be sired by Double Circle Ranch 500 and Fullen Farms 100. Double Circle Ranch 500 is the sire of "Hose" 800, owned jointly with Dis-

mond 8 Ranch of Achille, Oklahoma. Fullen Farms 100 is an own son of Cosgrove 10.

There will be three proven herd sires in the offering: Mayfair 59, Fullen Farms 100 and Double Circle Ranch 900 a son of Mayfair 59.

Haywire Cattle Company of Chisole, Texas will be a guest consignor. They will be selling approximately 30 cows with calves at side by a Cosgrove 38 bred bull. Several of these cows will be daughters of "Freight Train".

Double Circle Ranch is one of the early breeders of Santa Gertrudis in Central Texas with a herd number of 648. Their cattle are noted for their fertility and ability to hold their flesh under pasture conditions. One of the most prepotent bulls of the Santa Gertrudis breed "Hose" 800 was produced by Double Circle Ranch.

As a bonus to the sale, the volume buyer will receive 10 units of semen from "Hose" 800.

Auctioneer will be Gerald Bowie.

For more information contact the Sire Manager, Suddy Smith, Superior Sales, Rt. 2, Box 174, Huntsville, TX 77340. Phones: 409/291-1891 or 295-4401.

Great Santa Gertrudis Display at Pan-Am

Dallas — The World's Greatest Santa Gertrudis Display will be unveiled on opening day of the Pan-American Livestock Exposition in Dallas on Saturday, October 8.

The first of the many activities planned will be the judging of the First Annual \$100,000 Western Heritage Futurity and Sale beginning at 6:00 a.m. on

Saturday. The Premier Santa Gertrudis Association will have its annual fall sale Sunday evening, October 9. Open Santa Gertrudis classes will be placed by Dick Vesper, Cotulla, Texas, beginning at 6:00 a.m., Monday, October 10.

Exhibitors of Santa Gertrudis cattle will vie for a total of \$9,400 — \$4,500 in the open division; \$4,900 for beef heifers; and \$558 for steers. Through the cooperation of Santa Gertrudis Breeders International, and individuals

interested in promoting Santa Gertrudis cattle and supporting youngsters, we have been able to offer exceptionally large premiums in the open and junior divisions," stated Don Clark, Director of the Exposition.

In addition to cash premiums, the Premier Association, Joe Marchman Ranches and Double T Ranches will provide trophies in both the open and junior divisions respectively.

This year's Santa Fair of Texas theme of "Best of Shows" emphasizes the prestige of the livestock industry in our state and nation.

Additional livestock information is available through the Livestock Department, State Fair of Texas, P.O. Box 26010, Dallas, Texas 75228.

Tucker & Glaze Have Reserve Bull At Polled Hereford Show

Doane Ellis of Columbus, Mont., stood at the top of the female show and Beartooth Ranch, also of Columbus, wrapped up the championships on the bull roster at the Yellowstone Exhibition Polled Hereford Show, Merit McIntosh of Ft. McKavett, Texas, judged the 25 Polled Hereford arias in the Aug. 19 show at Billings, Mont.

Ellis stepped up to the championship position in the female competition with the junior division winner BT L1 Dominetta 800P. Ellis then led ACECL Dominetta 800P the championship circle to collect the reserve grand champion title.

In the bull show, Beartooth captured the purple championship banner on Beartooth Project 89P, the junior champion bull. Reserve junior champion Paramount 80P, moved into the reserve grand champion bull position. He was shown by Tucker Cattle, Ada, Okla.; Andy Glaze, Gilmer, Texas; and Beartooth.

Beartooth won the premier exhibitor honor and claimed the blue ribbons in the group classes with their first-place gold-silver entry on Driver and their top-ranking best-of-head.

Paramount 80P was named the reserve grand champion bull in the Polled Hereford Show at the Yellowstone Exhibition for Beartooth Ranch, Columbus, Mont.; Tucker Cattle, Ada, Okla.; and Andy Glaze, Gilmer, Texas.

The reserve grand champion Polled Hereford heifer at the Ohio State Fair was SC Ma Shower of Stars. She is owned by Hebbards Polled Hereford and Morgan Lend and Cattle Co., both of Canton, Texas; the The Whaley and Anderson Polled Herefords, both of Garland, Texas.

Texas Heifer Is Reserve Female At Ohio Show

Falklands Farm of Schellburg, Pa., collected the champion bull title and Victor Kline, North Custer, Ohio, earned the grand champion female honors in the Polled Hereford show at the Ohio State Fair. There were 213 Polled Herefords competing in the Aug. 17 show at Columbus, Ohio, making it one of the largest Polled Hereford competitions of the season.

Judge Dr. David Hawkins of Michigan State University, East Lansing, named senior champion FLF Kleg Pin 2008 as his grand champion bull. He is a January 1982 son of Gold Standard Sire BT L1 Advancer 12H exhibited by Falklands.

Victor Kline stepped into the championship position in the 147-head female show with his junior division winner, WLB Lady Wilde 4P. She is by Gold Trophy Sire Klondike Banner 469L and earlier in the summer was a winner at the 10th National Junior Polled Hereford Show where she was named the Division II champion.

The reserve grand champion female heifer was captured by a quartet of Texas breeders on reserve junior winner SC Ma Shower of Stars. She was sired by Gold Trophy Sire Sibirik Oiled 67K, "The Slick," and is owned by Hubbard's Polled Herefords and Morgan Lend and Cattle Co., both of Canton, Texas; and The Whaley and Anderson Polled Herefords, both of Garland, Texas. Ryder received the runner-up bull championship title for breeder and owner G.R. Thomeas Farms, Grand Rapids, Mich., and co-owner ACE Polled Herefords, Millbrook, N.Y. The reserve champion is a son of The Duke and was the top entry in the junior bull category.

Polled Hereford Show Premiums \$6,000

Dallas — Polled Hereford, one of the popular breeds of beef cattle, will be on display during the 31st annual Pan-American Livestock Exposition in Dallas October 7-11. Open exhibitors will compete for \$6,000 in premiums provided by the State Fair of Texas and American Polled Hereford Association. Entries will be judged on Sunday, October 9 by Jack White, Colorado Springs, Colorado.

In direct trading slaughter lambs steady to firm on Friday and over the week-end in the mid-west.
Slaughter lambs: choice and prime 95-125 lbs with No 1-2 pelts 50.00-53.50, few 54.00, with 95-120 lbs woolled 50.00. Lambs FOB and delivered, some weighed with 3-4% shrink or equivalent.

Scientists say there have been about 66,000 generations of humans.

Florida Monday

Orlando, Sept. 13 (F-S) — Receipts at Gainesville, Gracoville, Tampa and Wauchula 2,500. Moderate demand for increased receipts over previous holiday week when some markets had no Monday sales. Prices compared two weeks ago, slaughter cows mostly steady except Gainesville steady to 2.00 lower. Bulls steady to 1.00 lower and slaughter calves

steadily to 2.00 lower. Bulk of feeder of fering medium frame 1&2, 200-500 lbs; steers generally 1.00-4.00 higher, most increase on No 1's with intakes 5.00-6.00 up under 300 lbs; heifers steady to 3.00 higher, most increase on No 1's under 300 lbs except at Gainesville this weight steady to 1.00 lower; stocker and feeder cows, mainly at Gainesville, steady to 2.00 lower.

International Braford Association, Inc.
FIELD DAY - SEPTEMBER 24, 1983
Hosted By: **SIX R RANCH - Nashville, Arkansas**

HISTORY OF SIX R RANCH
The Six R Ranch has been in existence for forty-three years. The brand was first registered in Orlando, Florida by Cushman S. Radebaugh, Sr., a past president of the American National Cattlemen's Association, (now deceased).
The Ranch operated as a family business in Orange, Volusia, and St. Lucie Counties, Florida in the name of Cushman S. Radebaugh and Sons, Inc. In 1973 the family Corporation was sold and Cushman S. Radebaugh, Jr. and his wife Doris moved to Nashville, Arkansas taking the Six R Brand with them.
During the early 1950's the Radebaughs recognized the Hereford/Brahman cross as being their best and most consistent cattle. In the late 1950's a selective Braford up-grading program was begun using some of the better F-1 cows.
When Cushman and Doris moved to Arkansas they took some of the Florida Brafords, as well as some other cattle, with them. They soon found that the Brafords accepted the change to the cold winters and dry summers, "out-doing" the other cattle just as they had in Florida.
Since coming to Arkansas, Cushman and Doris have had their cattle on a continuous up-grading program and are gradually replacing the commercial cattle with Brafords. They now have about four hundred head of Braford females registered with the I.B.A.
The next generation is also in the Braford business. Son, Chip and his wife Stephanie, daughter, Lynn and her husband Dickie Hendry, and daughter, Denise and her husband Darrel Koecher, all have registered Braford cattle and are on an up-grading program. Daughter, Susan and her husband Bob Adams, live on the Ranch. The youngest son, Mike is still in school and lives at home. All are becoming more a part of the operation.

PROGRAM
MODERATOR.....Johnny Stone, Nashville
9 A.M. - 10 A.M.....Registration
9 A.M. - 10 A.M.....Weight Guessing Contest

Livestock SHOW BOXES
...from the World's Largest Manufacturer

The finest and best made... A high quality, super constructed SHOW BOX to meet the needs of every Showman. There's the large box for showing cattle and horses. Small box for showing lambs and pigs and even the all new STEER BOX, which is medium sized. All boxes feature lightweight, fibreglass construction, padded lids, a big variety of colors including 41 and FFA colors. All have carpeted interiors and chrome trim with chrome hardware. Durable, sanitary and easy to load around. Go first class with a Show Box from Williams.

Take the Snell Fence Test... WHICH IS THE BEST "H" BRACE?

There's no question that Snell Power Fence® is the answer for livestock producers trying to improve management and cut costs. Constructed of Hi-Tensile smooth wire and durable fiberglass "T" posts, powered by Gallagher/Snell Energizers that won't short out. Snell Power Fence is more effective than traditional barbed or net wire fencing, but only costs half as much.

Answer: If you said B is the best "H" brace, you know your fencing. Spacing the brace posts a minimum of nine feet apart angles the guy wire at 45 degrees, providing maximum support for the fence. Spacing the posts closer together (as in A) causes the guy wire to pull upward, eventually pulling the end post out of the ground. Two opposing guy wires (as in C) work against each other, resulting in no support at all.

For more information on how to build the most effective, economical and long lasting fence with Snell Power Fence® products, contact:

New Minimum-Till Plow Bottom

Engle Engineering and Manufacturing, Inc., Waconia, MN announces the addition of the Engle Minimum Till Plow Bottom to their product line. This unit attaches on most conventional mold-board plows. It breaks the soil's hard pan at optimum levels of 12-15 inches loosening the ground to allow moisture penetration. The attachment does not disturb vital nutrients in soil and allows 60% cover. The wings on the unit are detachable to adjust to different ground cover requirements. This unit can be installed on an eight-bottom plow in two hours.

For more information on the Engle Minimum Till Plow Bottom and other

PRORICH FEEDS
FROM THE HEART OF THE ROCKIES...

A Testimonial...
"This past winter I used Prorich supplemental feed on my cow herd. I was very pleased with the results. As the cattle came through the winter in better condition than ever before. The cattle shined off immediately and cycled earlier. Having used different feeds in the past I can appreciate the value of the Prorich formula."

animal geneticist Lamar Reynolds, who USDA's Agricultural Research Service also report that the colder it gets, the longer cows wait before starting to graze in the morning. At 20 degrees, cows started grazing between 6:30 and 7:30 a.m.; but at minus 30 degrees, they waited until about 10 a.m.

The scientists strapped ultrasonic recorders to cows' necks to record the activity. These instruments were originally developed for recording the number of hours trucks and other industrial machinery operated per day.

A pendulum attached to a pen spring when the recorder is triggered. By making the pen stroke made on a rotating graph, the scientists were able to determine when and how long cows grazed.

Adams and Reynolds recorded cow behavior from December 1 through January 15, a period when temperatures ranged from 38 to minus 30 degrees. Weather data provided by a local airport about a mile from the study area was compared to cows' behavior. Out of the data, including temperature, humidity, wind velocity, barometric pressure, and precipitation, temperature was the most important climate factor.

Cows grazed a median of 1.5 hours per day, but the range was from 0.5 to 2.5 hours. The USDA Fort Kech Livestock Range Research Station, Miles City, Mont. They did not receive a feed supplement. Twelve cows were in the study. Adams and other scientists have expanded the study this winter and will observe the effects of cow size and fat on grazing behavior.

Range scientist Don G. Adams and

"NEW STUFF" (continued)

Crossbred Beef Cows Vary In Production Efficiency

Average weaning weights of calves from a group of large and high-milk-producing crossbred cows exceeded those from another group of cows by 455 pounds. But at slaughter time—455 pounds of age—the lighter group of calves days of age—the lighter group in pounds of meat per unit of feed consumed by cow and calf.

This continuing study at the Roman L. Hruska U.S. Meat Animal Research Center here, indicates that feed energy costs for maintaining beef cows may have an important bearing on profits as the amount of beef produced per cow.

Details of the study are published in a new publication, "Germ Plasm Evaluation Program—Progress Report No. 10" by USDA's Agricultural Research Service (ARS), Kansas State University and the University of Nebraska.

ARS chemist Calvin L. Ferrell and 185 animal geneticist Thomas G. Jenkins observed that energy requirements of cows differ according to their genetic potential for mature size and milk production. The crossbreds compared were Angus-Herford or Hereford-Angus, medium milk-medium size; Charolais-Angus or Charolais-Herford, medium milk-large size; Jersey-Angus or Jersey-Herford, high milk-medium size; and Simmental-Angus or Simmental-Herford, high milk-large size.

"Our study shows that cows with high milk production potential have higher maintenance requirements per unit of body weight than cows with low milk production potential," says Ferrell.

The medium milk-medium size crossbreds most efficiently converted feed energy into retail meat. Looking at the data from the standpoint of feed energy rather than economics, Ferrell says, crossbreds characterized by high milk production and large mature size potentially may require high maintenance overhead that is not offset by greater production.

The researchers stop short of saying that one kind of crossbred cattle is best for all production and marketing situations. Rather, they see the management strategy of the future for successful cattlemen as matching the cattle breed type with the resources available and then finding ways to use all resources most efficiently.

In a similar study Ferrell and Jenkins found that cows required less feed energy for maintenance than for cows of similar genetic background when previous nutrition accounted for the difference in conditions.

Noble Foundation Wildlife And Fisheries Field Day Sept. 22

A field day emphasizing wildlife and fisheries management will occur at the Noble Foundation Wildlife Unit on September 22, 1983. This field day will be a good opportunity for people to improve their understanding of wildlife and fisheries management. Programs and tour topics will discuss deer harvest strategy, deer drop net, controlling deer depredation on crops and gardens, pond management for sportfish, prescribed burning, and quail management. Anyone curious about wildlife or fish should find the information interesting and educational. The presentations will be especially oriented toward sportsmen and landowners.

Move round bales as gently as hydraulics without leaving your pickup seat!

Priefert Hay Dolly

No winches
No hydraulics
No electrical connections

Don't Damage Your Roof!
When you get moisture under the roof of the bale, it can't dry out and this spoils the hay. The Priefert Hay Dolly never touches the roof, never drops or rolls the bale. With no bale damage, there's seldom bale spoilage.

The Priefert Hay Dolly hooks to your pickup or tractor with only a simple pin hitch and trip rope. Because brakes are not required, the Hay Dolly works well in bad ground conditions. The simplicity of the Priefert bale mover will amaze you and assure you of a long, productive life for this unit.

Write or phone for literature and dealer nearest you.

ABA Urges Stronger Card Fraud Laws

Washington, DC, July 27 - Proposed changes in the Truth-in-Lending law and the Electronic Funds Transfer Act will help control credit card fraud, the American Bankers Association (ABA) told a House subcommittee today.

Testifying in support of H.R. 2885 and H.R. 3622 before the House Banking subcommittee on consumer affairs, Sandra J. McLaughlin, vice chairman of the ABA's Bank Card Executive Committee, urged lawmakers to move forward with this legislation as quickly as possible. McLaughlin is senior vice president, Mellon Bank, N.A., Pittsburgh, PA.

"The industry recognizes that more criminal legislation is not a complete answer to the current problems and the problems we will face in the future. Instead, legislation may represent only a small part of the solution," McLaughlin said, adding, "A large part of the responsibility for counterfeiting prevention falls on the industry."

McLaughlin reviewed the major training and policy coordination activities of the ABA's Bank Card Fraud Task Force which was formed in February 1982. She noted that the industry group, including representatives of Visa and MasterCard, had sponsored nationwide card fraud seminars for banks and other card issuers, and had recently launched a national public education campaign to help cardholders protect themselves against fraud.

Addressing the provisions of the House bill which prohibit account number disclosures, McLaughlin said that the ABA had originally been concerned about many of the restrictive exceptions to the prohibition. These concerns had been alleviated, she said, by the list of exceptions made clear in H.R. 3622, but, she added, "We are hopeful that this subcommittee will use every opportunity to express an intention to allow continued account number disclosures in all aspects of the conduct of legitimate business activities. Such an expression, combined with the more complete list of exceptions contained in H.R. 3622, would help alleviate our concerns regarding compliance burdens associated with the overall approach of this portion of the bill."

The American Bankers Association is the national trade and professional association for America's Full Service Banks. The combined assets of its nearly 18,000 member banks represent approximately 85 percent of the industry total. The nine-member ABA Bank Card Fraud Task Force is composed of members of the ABA Bank Card Executive Committee, card security representatives of both Visa and MasterCard, a representative of the International Association of Credit Card Investigators, a member of the ABA Bank Card Standards Committee, ABA staff, and a card manufacturer serving in a technical advisory capacity.

Survey Shows Sanitation Is Important Swine Management Tool

If you are not now using a swine disinfectant, you are part of a very small minority of hog farmers.

That is the bottom line of a national survey of swine producers made earlier this year, which showed that four out of five regularly use a commercial swine disinfectant. The survey, conducted by Hess & Clark, Inc., manufacturer of DC&R brand of disinfectant, produced a response of 48.4 percent of the 1,000 hog farmers polled.

"The survey shows us that today's producers recognize the value of a good disinfectant program," explains Jack James, Director of Marketing for Hess & Clark. "They know that if 10 pigs are farrowed, only seven will reach the market. A sound disinfectant program before a farrowing can help reduce losses, because disease is a major cause of death in baby pigs."

Seven of every 10 producers classified their operations as "farrow to finish", and eight of 10 market over 2,000 hogs a year. They reported three major areas of use: the farrowing house (318 mentions), the nursery (241), and

foot baths (188).

Producers List Sanitation Goals
Why such widespread use of disinfectants?

"The hog producers listed effectiveness and long-lasting killing action as being the most important benefits," explained Mr. James. "There's a sharp drop after these two."

DC&R, he added, is the only product that promises a residual activity. This product was judged by hog raisers to be the most effective one (158 mentions), with the second most frequently named product receiving 85 mentions.

Producers said they buy disinfectants once every three months (171

mentions), monthly (107) or twice a year (100). Three of every four buy less than five gallons at a time, with the gallon size being the most popular (82 percent buy 1/2). Five gallon containers rank second, with 10 percent of the responses.

Most disinfectants are purchased in feed outlets or co-ops (121 mentions), while veterinarians ranked second, with 84 mentions. Respondents said they would be twice as likely to buy DC&R (181 mentions) as they would the second most mentioned product (82), and "local vet's product" ranked third with 29 mentions.

Sanitation Program Logistics Easy
Although specific details may vary from product to product, a sanitation program is easy to maintain, report Hess & Clark officials. A sound program depends upon both sanitizing and

men, and then stopping new contaminants from entering it.

"Before entering a farrowing house, be sure to disinfect your boots or shoes in a foot bath containing the recommended amount of disinfectant (i.e., one ounce of DC&R per gallon of water)," recommends James. "The farrowing house should be sprayed with the solution, starting at the top and working down. Give special attention to overhangs and other hard-to-reach areas."

Wash each sow thoroughly with soap and water, before allowing her to enter a farrowing pen, and rise with a mild antiseptic to reduce bacteria. Nursery pens should be thoroughly cleaned prior to the sow's arrival, and disinfected.

"A good sanitation program can help

producers reduce early death loss and get one extra pig to market," concludes Hess & Clark's Jack James. "The survey showed that the program is important and accepted (agreed to) in today's hog operations."

WHAT WE are up against is the fact that man is still an animal. That is the deepest thing in his nature - the survival instinct and the hunting instinct. Those were necessary at one time, the self-preservation was the rule, and then the pressures of society. So now by has an uphill battle against these inheritance. You have to recognize the enormous difficulty in making an animal and hunter into a citizen, a civilized man.

New Fuel-Efficient Blount Grain Dryers Give Greater Capacity

New Blount/Commercial Products Group gravity cross flow SCF grain dryer feature innovative energy saving, quality improving features and an expandable design to save money for virtually any size grain system.

- Created for farm and commercial use, SCF grain dryers are available in sizes ranging from 250 - 1800 bph at five percent removal for shelled corn. Units feature a modular design for quick, easy installation and expansion to meet future needs.

- Reduced energy costs result from a number of SCF features which improve dryer efficiency.

- Centrifugal heating fans and a cool-

ing fan operates quietly at higher static pressure and offers greater airflow. Sequenced timers start each fan separately to reduce start-up power demand.

- Adjustable inlet louvers provide fast, accurate airflow adjustments at all dryer stages for different drying conditions.

- Maximum capacity not even drying is ensured with variable speed motorizing rolls, resulting in the patented differential grain speed section.

- More fuel is saved with the optional recirculator that recaptures heat from grain and provides preheated air to the burner.

- Down time and malfunctions are minimized with an electronic control panel and electronic troubleshooting. Safety devices include warning horns, exhaust air temperature sensors, ultraviolet flame scanner, automatic fuel shutoff and dryer shutdown.

The Blount/SCF dryer features 18 gauge, .075 perforated screen sections with 12 gauge stiffeners; 10 gauge column dividers; and eight gauge legs.

- More information is available from Blount/Commercial Products Group, a subsidiary of Blount Agri/Industrial Corp.

Electronic Instrument Helps Livestock Handling

The Stockstill, a new electronic instrument from Australia, provides a highly effective tool for efficient livestock handling. The device immobilizes the animal so that the veterinarian or stockman can work with maximum convenience and safety for himself and less stress on the animal. Routine procedures from de-horning to castration can now be done

more quickly and more safely, and many minor surgical procedures can be carried out while using the Stockstill.

Two clips are attached, the battery-powered unit is turned on, and the animal is instantly immobilized. The operator can move head or limbs into any desired position, but the animal is unable to move on its own. The procedure is completely safe and has no after-effects. Seconds after turning the Stockstill off and removing the clips, the animal is back to normal. No resistance is seen to repeated applications.

tions of the Stockstill - indicating the absence of psychological as well as physical after-effects.

Users of the Stockstill report advantages such as reduced bleeding and faster healing, as a result of being able to do better work. The use of the Stockstill permits the owner to reduce losses due to the stress of handling.

American consumers spend a billion dollars a year for cold relief preparations.

"NEW STUFF" (continued)

A Beef Animal Is Not All Steak

Many persons complain about the high price of steak compared to live cattle prices. But, let's look at what a 1,000-pound live steer yields. It will have about 800 lbs. carcass and about 450 lbs. of retail cuts. The choice steaks include about 45 lbs. of sirloin steak and 35 lbs. of T-bone, porterhouse and club steaks for a total of 80 lbs. One can also include 65 lbs. of round steak, although they are not as highly desired as the others. So, a 1,000-pound live animal yields only about 145 lbs. of steaks. Hence, the reason for a higher price for steaks. The carcass yields about 170 lbs. of roasts, 45 lbs. of hamburger and 90 lbs. of stew meat and miscellaneous cuts. Retail stores, however, will deviate from these beef cut-out figures, depending on the consumer desire for various cuts in their area.

A beef animal is also a source of many important edible and inedible by-products. Among the edible by-products are variety meats such as sweetbreads, liver, kidney, tripe, tongue, brains and ox joints. Many persons esteem them as delicacies. Other edible products include ones made from fats such as oleo stock and oleo oil used for margarine and bakers shortening. Oleostearin is used in making chewing gum and certain candles. Gelatin from bones, horns and skins is used in making ice cream, marshmallows, canned meats and gelatin desserts. Intestines are used for natural sausage casings and for surgical sutures.

Inedible by-products include pharmaceuticals used as life-saving or life-improving drugs such as insulin, thrombin, epinephrine, rennet, heparin, TSH and ACTH. Hides are used for three types of leather: suede, latigo and tooling. Hide also supplies fat, certain textiles, a base for many ointments, binders for plaster and asphalt and a base for insulation material. Hair is used for the production of insulation and for rug pads, artists brushes and camel hair brushes. Inedible fats are used in industrial oils and lubricants as tallow for tanning and soaps and glycerine, which is used in explosives, face and hand creams and lipsticks. Fatty acids are used in the production of chemicals, detergents and pesticides. Steric acid is used to make tires run cooler and last longer. Bones, horns and hooves are used in buttons, bone china, piano keys, glues and adhesives, animal feeds and fertilizer, natto oil, paper, wallpaper, emery cloth, sandpaper,

combs, toothbrushes, violin strings and others. All the by-products are called the "fifth quarter," which is the determining factor in whether they make enough profit to stay in business or not. It allows them to sell the carcass beef at wholesale for less than the live animal cost. A big challenge ahead is further basic research to find new uses and more efficient use of the present by-products. Therefore, when we enjoy that delicious steak, let's remember that other parts of the animal must find a use as well, so the price of steak does not go too high.

Good Time for Routine Maintenance Of LP-Gas Tanks

Austin, Texas, August 5 - If you are one of the one million Texans who depend on LP-gas for heating, air conditioning or cooking, long summer days are a good time to think about routine maintenance of your LP-gas tank.

"Few people realize that an LP-gas container needs proper care to last," said Hugh Keepers, director of the Liquefied Petroleum Gas Division of the Railroad Commission. "They are very costly and a few simple maintenance steps can save consumers the cost of replacing their tanks."

Start your summer maintenance by giving your tank a coat of good quality,

white metal paint. Aluminum tanks don't have to be painted. The reflective surface helps reduce the temperature of the tank, keeping pressure from building up. Painting also protects the container from rust and corrosion.

Make sure your container is mounted correctly. LP-gas tanks should always be level, above ground and mounted on a masonry foundation. Never allow water or sand to collect in the area between the tank and the ground. Proper ventilation keeps moisture from collecting and helps avoid corrosion.

Never place a tank inside or near a building. State law requires that tanks be placed at a minimum of 10 feet from a building. A licensed LP-gas dealer will fill a container that doesn't meet this requirement.

The manufacturer's nameplate on a LP-gas container is very important. It assures the consumer that the tank was designed to meet safety rules. A licensed dealer can't fill a container that doesn't have this nameplate, and it's information on it, visible. To protect it from rust and corrosion, put a layer coat of grease or clear, acrylic sealant over the plate.

These simple steps will insure the safe operation of your LP-gas tank and all years to its life.

"NEW STUFF" (continued)

Shifting More Calf Births To Daylight Hours

Feeding pregnant heifers in the evening, rather than the traditional feeding in the morning, resulted in 17 percent more daytime births.

Cattle producers must sometimes assist heifers and cows during calving if they experience calving difficulties, and it is such a task for producers to spot problems during daylight. If the dam is not given help, her life and that of the calf are endangered.

Scientists at the U.S. Fort Keogh Livestock and Range Research Station, Miles City, Mont., started studies with 42 heifers confined to a feedlot during the calving season. The heifers were fed all the corn silage they would eat in the night to 10 hours plus two pounds of ground barley. Starting one week before giving began, scientists fed half the heifers between 8 and 9 a.m. daily and the other half between 8 and 9 p.m. daily. Seventeen percent more of the evening-fed heifers calved during daylight than the morning-fed heifers.

The scientists expanded their study the next 3 years to include over 800 heifers. Both the morning-fed group (fed between 7 and 9 a.m.) and the evening-fed group (fed between 8 and 9 p.m.) received 10 to 20 pounds of alfalfa hay and three pounds of pelleted barley. Again, 14 to 17 percent more of the evening-fed heifers calved during daylight.

Canadian research, a summary by Iowa State University, and observations by beef producers and veterinarians have indicated an advantage for evening feeding. All breeds present on the station were included in the study and there were no differences among breeds.

Taxpayers Can Appeal Tax Examination Results

Taxpayers who are not satisfied with the outcome of their federal income tax examination have the right to appeal.

with the Internal Revenue Service, or through the courts, or both.

According to the IRS, after the tax examination, the first step for a dissatisfied taxpayer is to request an immediate meeting with the examiner's group supervisor. The supervisor may be able to resolve the issue at that point.

If an agreement is reached with the supervisor, taxpayers have 30 days to appeal through administrative channels. It works this way: An informal conference call is arranged in any of the over 600 offices throughout the country with a representative of the Regional Director of Appeals, who has the authority to settle the case, regardless of dollar amount.

The Appeals Division is independent of the Examination Division, and the role of the appeals officer is to bring an unprejudiced and unbiased point of view to the case. The appeals officer is responsible for trying to reach a mutually satisfying settlement so that the case will not have to go to court.

Additional information on taxpayers' rights of appeals is available in the IRS Publication 558, "Examination of Return, Appeal Rights, and Claims for Refund," which can be obtained by calling the IRS Forms/Tax Information number listed in the telephone directory under U.S. Government.

Trial Program Boosts Public Land Stewardship

An experimental program for resolving public controversies over Forest Service and Bureau of Land Management actions in a 2-million-acre area in northeastern California and northwestern Nevada "may point the way" to more successful public land management in other areas, Bob Wright, chairman of the National Cattlemen's Assn. public lands committee, said following a recent tour of the area.

The success of the "Modoc Washoe Ex-

perimental Stewardship Program" in resolving conflicts among government agencies and public land user interests suggests that some of the innovative techniques employed in this program should be tried in other public land areas of the West, Wright said.

"Our years ago this area was the scene of bitter disputes over the management of the public land resources," Wright said. "Interest groups were polarized, and there was no communication, even among the various federal and state agencies involved. Today the situation has been reversed; people are cooperating, and real on-the-ground progress is being made."

Wright said that the tour convinced him that there needed to be local structures or forums for ranchers, wildlife interests, wild horse advocates, agency personnel, and others to better understand each other's interest and concerns and to provide a means for compromise. "In the Modoc Washoe area, once the lines of communication were opened, the groups found ways to work out some of the resource conflicts," he said. "The

methods and practices used here may not work in all other areas because a lot depends on whether people are willing to be reasonable, but we will never know until we try."

The Modoc Washoe program is one of three experimental stewardship programs in the West, established under a provision of the Public Rangelands Improvement Act of 1978. The Modoc Washoe program involved establishment of a stewardship steering committee, composed of representatives of interest groups and state and federal agencies, to develop cooperative management programs for the public lands in the area. The steering committee in turn formed a technical review team, and both require unanimous consent before any action can be taken. "This has prevented buck passing," Wright said.

Incentives are given to ranchers to improve stewardship, such as actual use bill at the end of the grazing season and credit for up to 50 percent of the grazing fee for rancher-constructed range improvement.

"THIS IS NO BULL"

Virden Perma-Bilt Engineering department is now offering, 1 7/8" x 2 1/4" windmill cylinder barrels, with caps, at 1/4 the price they are selling for now! These barrels are as good as any brass barrel on the market! The urethane lining assures long life and true-check strokes. Our 1 7/8" x 2 1/4" Barrel sells for \$37.95 plus \$2.75 postage. It connects right to your 2" pipe (steel or PVC). These urethane lined barrels are doing a wonderful job right now. Send for information. This is our 33rd year.

Brush Country's Best Beefmasters Avg. \$6,602

Bivins, TX - The Brush Country's Best Beefmaster Sale with consignors Harold Beckwith, Seventy-Seven Ranch and Cow Creek Beefmasters on Sept. 3 grossed \$869,700 on 56 purebred lots and averaged \$6,602. Two bulls grossed \$8,000 to average \$4,300. Twenty-five three-in-one lots brought \$228,700 and averaged \$10,108. Ten pairs brought \$48,500 and averaged \$4,850. Thirteen bred females brought \$44,500 and averaged \$5,260 and six open females brought \$17,100 to average \$2,850.

Top selling bulls were Lot 1 taken by Katie Bros, Corpus Christi, at \$5,100 and Lot 8 at \$5,500 went to Wayne Fisher, Houston. Both bulls from Horlock. Top selling three-in-ones, all from Horlock, included Lot 4 taken by Fabin Cattle Co., Houston, at \$62,000. Lot 13 taken by David Brown, Fort Myers, Fla., at \$55,000 and Lot 19 taken by Joe Yarbrough, Three Rivers, TX at \$42,000.

Top pairs included Lot 5 bought by Thompson Bros., Mandeville, La., at \$4,800 from Horlock. Lot 48 bought by Fico Place, Buffalo, TX at \$7,000 consigned by Seventy-Seven Ranch and Lot 56 went to Cuarecta Ranch, Muldoon, TX at \$7,000 and was consigned by Cow Creek Beefmasters.

Top selling bred females included Lot 34 from Horlock bought by Grace Long, Saddle, TX at \$7,200. Lot 55 from Seventy-Seven Ranch brought \$8,000 from Triple J Beefmasters of Katy, TX. Lot 28 from Horlock brought \$4,000 to Leon Lankford, Corpus Christi. Lot 58 from Seventy-Seven Ranch sold to Fred Lankford, for \$4,000 and Lot 69 from Cow Creek sold to Gary Jordaa, Lexington, TX for \$4,000. Top selling open females all from Horlock included Lot 29 at \$6,000 to Leon Lankford, Lot 41 at \$4,000 to David Brown and Lot 39 at \$3,000 to Jack Madors, Mabank, TX.

Buyers were from Florida, Mississippi, Louisiana, Utah, Georgia and Texas. Some buyers included David and Susan Brown, Fabian Cattle Co., and Joe Yarbrough. Sale manager was Thompson Cattle Marketing and auctioneer was Gerald Bowls.

Shelton Ranch Quarter Horse Sale \$389,100

Kerrville - Shelton Ranches first Halter and Performance Accent Sale Aug. 30 grossed \$389,100. The 71 American Quarter horses sold were the offspring of championship halter sires and champions. The investor, Walby, McLeo Bar, Skipa Star, Rosie Mount, Quincey Dan and the carefully assembled broodmare band of Shelton Ranches.

After cutting, halter and performance events are the fastest growing segment in the quarter horse industry today," says Robert R. Shelton, president and owner of Shelton Ranches. "For the first time in the history of halter and performance events, there is real money to be won in this kind of competition. There's now value being placed on quarter horses bred for halter and performance abilities. That's why we've increased our halter and performance animals in a separate sale this year. We wanted to acknowledge the increasing performance industry and give our customers the opportunity to get their hands on the performance of the future."

Shelton Ranches halter and per-

formance sales totals will reflect growth of this segment of the quarter horse industry. "We're on the verge of a whole new profit center in the industry," he says. High premiums will be placed on these horses.

The top price paid at the Accent Sale was \$87,500 for Conclusive's Beam, a yearling bay mare sired by 1981 World Champion Aged Stallion Conclusive. The dam, Constance Sam, is an American Quarter Horse Association (AQHA) Halter Champion. Conclusive's Beam was sold to C. Grier Beam of Sunbeam Farms in Cherryville, N.C.

Beam also purchased 8R Conclusive Beam, a 1983 weanling by Conclusive and a full sister to Conclusive's Beam, for \$82,000.

Another top seller was A Star For Sure, a five-year-old mare, who is currently in foal to Conclusive. A Star For Sure, who sold to John and Gordon Hanagan of Pontfield, Ill. for \$20,700, has earned two better grand championships and four reserve championships. Accent Sale prices averaged \$5,480. Weanling mares averaged \$5,889 and weanling stallions averaged \$2,348.

Yearling mares averaged \$15,875 while bred mares averaged \$7,558.

"This sale clearly reflected the demand for championship quality halter females," notes Shelton. That's a clear indicator that the halter and performance horse breeders are looking to expand their breeding programs to meet the future demand for animals with proven halter and performance ability.

Every weanling, yearling or 1984 foal of a mare purchased at the Accent Sale of a mare purchased at the Accent Sale that wins an AQHA World Championship in halter, western pleasure, cutting or working cow horse events, will be awarded \$10,000 by Shelton Ranches to be equally split between owner and trainer.

In addition, any weanling, yearling or 1984 foal of a mare purchased at the sale that wins an AQHA Championship or AQHA Superior Event Award in halter, western pleasure, cutting or working cow horse event will win a \$5,000 award. The award will go to the trainer at the time he finishes qualifying for the award.

Shelton horses will again be the focus of the quarter horse industry Sept. 14 at the Shelton Ranches 1983 Classic Sale which will feature 80 cutting-bred

weanlings. All horses in this sale will be sired by Shelton Ranch stallions Doc Athesa, Doc's Jack Frost, Doc's Superstar Bar, Poppy Sam and Tanageray Gila or the Super Syndicate Ltd. stallions.

Super Syndicate Ltd. is a \$81 million breeding and marketing organization designed to breed the world's greatest cutting horses and promote cutting as a high-level professional spectator sport. Organized in early 1982 by Shelton and seven other general partners, it is the first mass quarter horse syndicate in history. Super Syndicate sponsors an exclusive annual cutting event, The Gold & Silver Cutting Horse Stakes. 1988 Super Syndicate-bred foals will have the opportunity to compete for a \$8.5 million purse in 1987.

In conjunction with the 1983 Classic Sale, Shelton Ranches will sponsor its Five-Year-Old Cutting Classic, with a \$25,000 added-money purse, Sept. 18 through Sept. 17 at the Shelton Ranch Arena. The arena is located four miles south of Kerrville on Highway 178.

THE BARFIELD SALE NINTH EDITION

Saturday, October 15, 1983 Immokalee, Florida
Seedstock Sale - 10 A.M. Afternoon Bull Sale - 2 P.M.

The Barfield Sale of superior Beefmasters is heading into its ninth straight Edition. Traditionally, it has produced the brightest stars and future stars in the breed - and with it, some of the best investments in the cattle industry. It has also put a bunch of Beefmaster bulls in good commercial herds.

Our Ninth Edition cattle are cast from the same mold. They represent a good balance of proven genetics, excellent performance and highly marketable bloodlines. They'll produce - and they'll sell!

The Ninth Edition features

- 6 - Herd Sire and Herd Sire Prospects, Ages Two, Three and Four
- 32 - Three-In-Ones, Including 12 solid Herd Sire Prospects At The Sides of Cows and 20 Heifer Pairs
- 7 - Bred Heifers
- 5 - Open Heifers
- 75 - Afternoon Sale Bulls, Mostly 18-24 Months Old, With 10-12 Older Bulls From Our Upgrading Program.

TFU Announces Winner Of Soil, Water Conservation Award

Waco — The Texas winner of the 1st Annual National Endowment for Soil and Water Conservation Awards Program has been announced by Mike Moeller, President of the Texas Farmers Union. TFU served as the coordinating organization for the contest in Texas.

Romas Friemel, a Panhandle farmer from Groom, will represent the state in the National competition. According to Moeller, Friemel was chosen for his innovative and cost effective conservation techniques from among numerous contestants. Friemel is owner-operator of 2700 acres of farmland that produces wheat, corn and grain sorghum.

Moeller said, "Friemel's operation is an excellent example of what judicious conservation methods and stewardship can mean to agricultural producers. He combines conservation tillage, furrow diking and efficient irrigation

technology along with using annual soil tests to make ultimate use of nutrients. We are very pleased to have had a part in spotlighting this outstanding farming operation."

Friemel has been deeply involved in conservation tillage for the past seven years. "It is gratifying to be recognized for my efforts in maintaining our soil and water resources," Friemel said. "I feel very strongly that conservation technology must be rapidly expanded and practically applied to farming operations in the future if we are to maintain our precious resources. Proper care of the land by my generation is the only way to assure an adequate supply of food and fiber for future generations."

Friemel's application will be forwarded to the national judging committee to compete with other state award winners from across the nation. The national winner will be announced from Washington, D.C. around Thanksgiving.

Split Embryo To Produce Twin Horses At CSU

Fort Collins — The country's first twin horses produced from a single embryo — first in the world produced by practical embryo transfer technique — should be born early and healthy, Colorado State University researchers announced today.

Two CSU mares are 7 1/2 months pregnant, each carrying one-half of a single embryo, said Dr. Ed Squires, director of CSU's Animal Reproduction Laboratory equine reproduction research program. Each half of the embryo is being transferred to a different mare, Squires said.

The embryo collection and transfer processes were the same as those developed by CSU researchers and used to produce identical twin calves last year, Squires said.

"We often modify techniques developed for cattle for use in horses," he said.

The pregnancies are a result of study on horse embryo collection, freezing, splitting and transfer techniques, said Neville Slade, equine reproduction graduate student who is doing the study. Slade collected the original embryo and transferred the two embryos.

Dr. Timothy Williams, postdoctoral fellow, split the embryo, using a microscope and micro-manipulator equipped with tiny tools developed for cattle embryo splitting.

A few years ago, researchers at the University of Kentucky and the University of California at Davis were the first to split a horse embryo by surgically removing one embryo from a mare's uterus. The experiment is the first time embryos have been produced from a single embryo collected in the fall.

Squires said.

Bob Pulse Joins The APHA

Ed Roberts, executive secretary of the APHA, announced the appointment of Dr. Robert E. Pulse as executive assistant effective July 1. Pulse will coordinate the activities of the Performance, Youth, Field Services and Racing Departments along with serving as director of public relations. Additionally, he will oversee the development of Association and employee educational programs.

A lifelong horseman, the Montana-raised Pulse comes from a family professionally involved in horse racing and breeding with added experience as a cowboy, rodeo contestant and cutting horse exhibitor. Educated at Montana State University where he received his bachelor's degree in animal science, he earned both his master's and doctorate.

Pulse is currently residing in the Henderson County Livestock Association office in Henderson, TX. He can be reached at 512/822-1680.

Cornforth Named Extension Economist

Dr. Gerald C. Cornforth has been named by the Texas Agricultural Extension Service, Texas A&M University System, to the position of economist for Northeast Texas.

Cornforth assumed the position on September 1 and is headquartered at the Texas A&M University Agricultural Research and Extension Center at Overton. He will serve a 19-county area stretching from the Red River to Gregg County.

The newly appointed economist will be responsible for educational programs in farm and ranch management as they relate to crop and livestock enterprises in Northeast Texas, said Dr. Zerie L. Carpenter, Extension Service director.

Cornforth is currently residing in the Henderson County Livestock Association office in Henderson, TX. He can be reached at 512/822-1680.

Drilling Applications Increase In August

Austin — A total of 12,320 drilling applications were processed by the Railroad Commission in August as oil and gas operators sought to avoid paying a \$100 drilling permit application fee that went into effect on Sept. 1. In July, 3,860 applications were processed.

The drilling application fee was approved by the Texas Legislature to provide funds for plugging abandoned wells and general enforcement of state pollution prevention laws involving oil and gas operations.

The August total included 10,301 applications for permits to drill new oil and gas wells, 132 applications to deepen existing holes, 502 applications to plugback existing holes, and 184 applications for service non-producing wells. Operators also filed 1,201 amended drilling applications.

Horlock Beefmasters Rush Country's Best Beefmaster Sale was held September 3rd in Riviera, TX. Guest consignors to the sale were "77" Ranch and Cow Creek Beefmasters.

Two bulls averaged \$4800, 25 three-in-ones \$10,108, 10 pairs \$4880, 13 bred females \$9289, 6 open heifers \$2850 for a total of 56 lots grossing \$369,700 to average \$6602.

Top seller was a "U" classified embryo donor cow born 1974 and bred by Harrell Cattle Company. She sold open with a bull calf at side by Magle, and with the buyer's choice of one of ten female embryo calves born in February 1982 at \$52,000 to Fabian Cattle Company of Houston, TX.

Second top seller was a Kingsbury bred cow born 1975. She sold safe in calf to Spots Jr. She had a heifer calf at side born January 10, 1983 sired by Circle

Dot 8/32. This three-in-one package sold for \$35,000 to David and Susan Brown of Ft. Myers, FL.

Third top seller was a three-in-one package, a cow bred by J. S. Cobb born February 1978. She was sired by Classic Crimson. She also had a heifer calf at side born March 8, 1983 sired by Saronito. Lot 19 sold at \$18,000 to Joe Yarbrough of Three Rivers, TX.

An excellent set of cattle going to a very active crowd of new buyers entered the Beefmaster business, sale manager Thompson Cattle Marketing, Auctioneer Gerald Bowles.

Texas Best Angus Set A \$3033 Average With 50 Lots

The Texas Best Angus Sale co-produced by Dee Bar H Ranch of Decatur, TX and Carpenter Angus Ranch of Jacksonville was held at the Dee Bar H Ranch.

Fifty lots grossed \$151,385 to average \$3033. Top seller was Glen Rose Mistress Ann 10878, a March 1978 daughter of

Glen Rose Eaten 9878. She sold safe in calf since January to Krugers Foolish Pride. This cow was a proven embryo donor cow and sold for \$18,000 to River Oaks and Pecos Valley of Mexie, TX.

Second top seller was Lucy of Bleck Eagle 21318. A 1978 daughter of Burdette's Giant, this embryo donor cow sold open at \$10,000 to Truxel Angus of Dade County, FL. Third top seller was CAR Elaine 208C, a March 1982 daughter of Progression. She sold safe in calf to Pine Drive Big Sky for \$9900 to Cobble Poed Angus of Sharon, CT.

Sale manager was American Angus Hall of Fame. Auctioneer Tom Gemmoe.

Polston Simmentals Set \$2070 Avg. On 97 Lots

The Polston Land and Cattle Company Simmental Sale was held August 27 at the ranch in Stephenville, TX with 97 lots selling for \$200,775 to average \$2070. Four fullblood pairs went for \$8825, with 28 purebred pairs bringing \$8235, 18 bred fullbloods at \$8781, 40 bred purebreds \$1507, 8 open fullblood

heifers \$8085 and 4 open purebred heifers \$1390. Two fullblood bulls sold for \$1975 and 5 purebred bulls \$1870.

The high selling lot at \$15,000 was a 1977 fullblood Simmental daughter of a heifer at side and bred back to Superstar. This pair was purchased by Cole's Diamond C Ranch of Abilene, TX.

Second high selling female was a bred fullblood polled daughter of Polaris that sold safe in calf to 8 Bar W Simmental Ranch of Woodville.

An open fullblood GSY Angus Superstar daughter brought \$10,000 from Longcreeper Farms of Midland, TX.

The high selling bull was a Simmental recipient, the Simbrah female with 1/2 calves at side, seven 1/4 Simbrah heifers, and 84 bulls.

Joe Mitham and Bruce Brooks will be the auctioneers and the sale headquarters is the Broadway Plaza Hotel in San Antonio.

For more information, contact: Deaso Taylor, sale manager, P.O. Box 137, Stephenville, TX 79401, 817/988-8028.

September 15, 1983 WEEKLY LIVESTOCK REPORTER Page 7B

HIGHLAND FARMS Irish Influence Shorthorn Production Sale

Sunday - September 25, 1983
At The Bill Smithers Farm
Pittsfield, Illinois
1:30 P.M.

SELLING 55 LOTS

This is a tremendous offering of top quality Shorthorn and Polled Shorthorn cattle that feature the Irish Shorthorn influence. The cow-calf pairs will consist of spring pairs, and a few very select summer pairs and fall calving cows.

Included in the offering are a select group of spring born steers and a few summer born steers that are eligible for the National Steer Futurity sponsored by the American Shorthorn Association. For more information, contact: Bill Smithers & Sons, 217/285-2078 or Cagwin Cattle Services, Inc., P.O. Box 156, Virginia, Illinois 62691, 217/452-3051.

Never hear more than one kind of trouble at a time. Some people hear three - all they have had, all they have now, and all they expect to have.

The 1983 Black National Chianina Show and Sale will be held September 26 at the State Fairgrounds in Oklahoma City, OK. Showing will be at 9 a.m. and the sale at 2 p.m. Selling will be 25 lots of this purebred and percentage bull and females. For more information, contact: Vernable, Inc., Route 1, Andover, TX 78006, 409/247-6761.

HEIFER CALVES THAT WILL SHOW AND GROW. Always a feature of the Highland Farms sales is the selection of outstanding heifer calves that are among the best to be found anywhere. These heifers will compete with any next year.

SHOW STEERS — Again this year, there will be offered a very select group of show steer prospects. Highland steers have for many years been among the very best to be shown in Illinois. There will be Spring born steers and a few select Summer born steers. These steers are all eligible for Land of Lincoln at the Illinois State Fair and can be registered for the National Steer Futurity sponsored by the American Shorthorn Association.

NEWS about LIMOUSIN

September 15, 1983 WEEKLY LIVESTOCK REPORTER Page 8B

Limited Edition Sale Of Limousins Set For Sept. 17 In Sealy

The Texas Limousin Association's Limited Edition Sale has been set for Saturday, September 17 at Port City Stockyards in Sealy, TX. Sale time is 1:30 p.m.

Included in the offering is 17 purebred cows with calves, 18 three-quarter cows with calves, 9 purebred fall calving cows, 5 three-quarter fall calving cows, 10 open purebred heifers, and 10 coming two-year-old heifers.

For more information, contact: Charles R. Rollins, sale manager and auctioneer, 8864 Race Street, Fort Worth, TX 76111, 817/888-0819.

Central Texas Limousin Go For \$735 Average

The Central Texas Limousin Cattle Show and Sale was held August 27 in West, TX. Thirteen bulls averaged \$784 with 47 females going for \$719 to average \$735 on the 80 lots.

Top bull was a January 1982 consignment of Stuffer Farms, Cherokee, OK, and he brought \$1100 from Henderson County Junior College, Henderson, Texas.

Tom Brady of Sanger took home the top selling female at \$1150. She was a 1976 model cow with bull calf at side consigned by Claude Munnell, Ballinger, TX.

Charles Rollins was the sale manager and auctioneer.

Bowman Limousin Will Disperse Complete Cow Herd, Sept. 17

Bowman Limousin Farms will hold this complete cow herd dispersal, Saturday, September 17 at Woodbrook Farms, Sprague, OK. Sale time is set for 1 p.m.

Selling will be approximately 150 lots including 48 fullblood cows (many with calves at side), 71 American purebred cows (nearly all with calves at side), 22 fullblood and purebred bulls (all are service sires), and three herd bulls.

For more information, contact: American Cattle Services, Route 1, Chattanooga, OK 76828, 409/586-8006.

Limousins to Show At Pan-Am Expo

Dallas — For the first time in the history of the breed, Limousin exhibitors will compete in the Texas State Show in Dallas. Through the cooperation of the Texas Limousin Association, we were able to offer open competition as well as classes for a State Show. stated Don Clark, Director of Livestock at the State Fair of Texas. Twenty (20) classes in the open division and seventeen (17) classes in the State Show have premiums available to exhibitors.

Exhibitors in the open show will compete for \$5,000 in the open classes and \$1,200 in the State Show classes. All cattle will be judged by Richard Stotts, Wichita Falls, Texas, on Friday, October 14.

In the Junior Beef Heifer Show, Texas youngsters will compete for \$1,025 in premiums on Thursday, October 20. These entries will be placed by John Meurer, College Station, Texas. Limousin steers, competing in Crossbred and Other Breeds classes will be judged by Dr. Robert A. Long, Lubbock, Texas, on Wednesday, October 19.

Additional livestock information may be obtained from the Livestock Department, State Fair of Texas, P.O. Box 28010, Dallas, Texas 75228.

Almost \$16 million will be invested in national and state programs in 1983. The bulk of these funds are generated from state checkoff programs. The remainder of the funds come from investments by purebred breeders (\$1 per transfer), beef packers (3 cents per head slaughtered) and meat processors (10 cents per ton processed).

Of the \$6 state checkoff programs, 28 are now state-mandated and 19 are on an implied consent (voluntary checkoff).

Deb Norton Adds Pritchard To Staff

Chattanooga, Ok.—Debbie Norton has recently announced the addition of Theresa Scott Pritchard to her advertising agency, Debbie Norton Advertising. Theresa is a 1982 graduate of Texas A & M University, with a degree in Agriculture Journalism, and was most recently associated with Stock Show Magazine.

Theresa is a native of Rising Star, Texas, and has been associated with the purebred livestock industry for many years. Her duties will include assisting in the development of advertising programs, sale catalogs, ranch brochures and ad layouts.

For the past 9 years, Debbie Norton Advertising has been responsible for the advertising and sale catalogs related to the American Cattle Services, Inc. managed sales, as well as:

- \$1 per head — California
- 50 cents per head — Illinois, Indiana, Iowa, Michigan (1/10 of own percent), Minnesota, Nevada, North Dakota, Oregon, Washington
- 25 cents per head — Arizona, Arkansas, Colorado, Florida, Georgia, Idaho, Kansas, Louisiana, Mississippi, Missouri, Montana, Nebraska, New Mexico, Ohio, Oklahoma, Pennsylvania, South Dakota, Texas, Utah, Wisconsin, Wyoming
- 20 cents per head — North Carolina, Tennessee
- 10 cents per head — Alabama, Kentucky

Commodities Comment

Week Ending Sept. 8
This last week the commodity markets were so exciting as wheat, corn, soybeans and cotton all moved to new highs. The only real action was in the soybean pit where limit up and limit down days are common. There are "new" fundamentals affecting commodity prices. A strong U.S. dollar, a mid-western drought and interest in the oil market are the main factors. The trade and public are now waiting the September 12th USDA Crop Report. Needless to say, the report is crucial for determining price direction for beans and corn.

The soybean and corn markets continued their winning ways this week. The trend is up and so top support is eight. The trade and public are now waiting the September 12th USDA Crop Report. Needless to say, the report is crucial for determining price direction for beans and corn. The dry mid-western weather has put much run in the course as a major factor affecting crop yields. The one made and nothing can improve yields this time. Some also believe that soybeans, being a "miracle crop," may be nearly as damaged as growing thought. But don't bet on it! Remember that the trend is up. Many traders are trying to refocus their attention to the demand side of the grain market. It doesn't be misled. This is a supply market right now and until the market tells you otherwise, don't sell it short. The actual crop sizes won't be determined until the upcoming USDA Report. So — stay tuned.

December wheat closed at \$9.27, December corn at \$3.64 and December soybean at \$4.05. The livestock markets finally showed some life this week. Cattle prices are bounded sharply after hitting an yearly low on Tuesday of this week. The buying came mostly from outside dealers covering short positions in computer programs pending the trade. Fundamentally, the only thing can find that is bullish for livestock is the grain markets. And higher grain prices are negative near term for livestock. So the livestock price dueler is caught in a real squeeze. Pasture land is drying up, feed costs are high, and interest rates are relatively high. Many traders believe that a "reversal" was made in cattle prices this week, but I don't think it's still too early to say. Livestock prices as fall approaches. For about feeder cattle prices approaching \$50-54 basis the October futures is possible. Sell the rallies in all breeds thru the first of the year. At the writing October feeders closed at \$44.87, and February calves at \$68.17.

Which way from here?
Nothing much has changed fundamentally over the past several weeks. Grains remain in an up-trend and currencies, interest rates and metals are mixed. I keep emphasizing that traders should trade "with the trend" and not against it. You'll find that it's easier on you mentally and financially if you practice that policy.
Some markets that bear watching are a possible change in trends in the oil market and foreign currencies. I don't believe that interest rates will go higher into the Presidential election year. Therefore, I would probe the long end of those markets on price breaks. This week's December bonds closed at 70.22, December GNMA's at 66.19 and December Swiss Franc at 46.00.
One final note: no grain. Although hot, dry weather has been a major market factor for some time, it's not the only factor.

(CONT. ON PAGE 11B)

LeRoy Hodge To Hold Limousin Production Sale, September 25

LeRoy Hodge Limousin, along with guest consignments, will hold a Limousin Production Sale, Sunday, September 25, in Perry, OK. Sale time is 1:00 p.m.

Selling 90 lots including 20 purebred and percentage cows with spring calves, 20 bred purebred and percentage cows, ten purebred and percentage bred heifers, 20 percentage and purebred service age bulls, 17 fancy spring bull and heifer calves and two herd bulls. Guest consignments are Bob Bower and Ray Gottschalk, both of Perry.

For more information, contact: American Cattle Services, Inc., Chattanooga, OK 73528, 405/335-3006.

Commodities Comment

(CONT. FROM PAGE 10B)

at other weather forces. Remember that the crops are still unharvested. How about so early frost? How about a wet harvest? In 1973, there were more soybeans harvested in January, 1974, than all of October, November and December 1973.
This past week I saw a real nice 6 point buck without velvet on its antlers. I also saw a flock of ducks winging their way south. An amen for grain? I guess so. Just too bullish! Jerry Welch, Commodity Specialist, Prudential-Bache, 281 S. Barnston, Suite 1400, Clayton, MO 63105, 800-325-7379.

West TX All-Breeds Fall Bull Sale

John Joyce, Owner, World Sales, announces the 1st West Texas All-Breeds Fall Bull Sale will be held at the Abilene Auction Yards in Abilene, Texas on September 17, 1983 at 4:00 PM.

Joyce announces, "We believe a high quality All-Breeds Bull Sale in the Abilene area has been needed for quite some time. Many breeders of commercial cattle have simply not had the time to select high quality range bulls. This bull sale will enable the commercial cattlemen to take the guess work out of buying bulls. The bulls offered in this sale will be weighed and a weight per day of age calculated, sifted for structural soundness, and graded by twelve to fourteen commercial cattlemen.

Registered bulls of any breed, at over eighteen months of age and not over twenty months of age at sale time will be accepted. A nomination fee of \$50.00 per bull is required and is due by August 15, 1983.

All bulls entered in this sale must have been registered originally in the consignor's name or have been transferred into the consignor's name by the nomination deadline. All bulls must be Brucella and Tuberculosis tested and also fertility tested. The bulls will be guaranteed by the consignor to the buyer.

The judging of the bulls will be held at the Abilene Auction Yards on Saturday, September 17th beginning at 8:00 AM. A Champion will be selected in each breed and trophies will be awarded. An "Ideal Rings Bull" will be selected from the breed champions.

For further information and nomination applications, please contact John Joyce, 1107 Cottondale Road, Whartoo, Texas 71486, or call 713/842-2095 and/or 409/607-8212.

Royal Hereford Show To Honor B.C. (Bud) Snidow

Kansas City, — Hereford activities at the American Royal will have several special features for 1983. Hereford activities will be from Friday, November 4, through Tuesday, November 8.

The \$15,000 Register of Merit Hereford competition will honor B.C. "Bud" Snidow. Snidow retired this past spring as assistant secretary of the American Hereford Association after

serving the Hereford industry for nearly 38 years in a number of capacities. He was employed by the AHA as a fieldman in the eastern United States, was moved to the headquarters in 1956, and continued in the AHA headquarters until his recent retirement. A number of special events have been planned to honor Snidow for his many years of service. The Bud Snidow ROM show will conclude the Hereford activities with the judging taking place at 8:00 a.m. on Tuesday, November 8.

An international flavor will be a part of the ROM judging as the placings will

A "little ear" on feeder calves has become an important marketing factor in recent years.

Some feeders are demanding that their order buyers select calves with some Brahman in their genetic make-up.

We think one of the best tools available to put a "little ear" on your feeder calves is to turn out a Beefmaster bull.

Contact the N.B.A. for a list of breeders who have breeding age Beefmaster bulls for sale.

National Beefmaster Association
817 Sinclair Bldg.
Fort Worth, Texas 76102
phone: 817/332-4816

be made by German Morille. Morille, a leading Hereford breeder in his native Uruguay and has judged many shows in South America, England and Scotland. The American Junior Hereford Association Convention will kick off activities with youth from all over the United States arriving for their annual meeting. The meeting commences on Friday, November 4, with more than 250 youth taking part.

Annual meetings of the American Hereford Association and American Hereford Auxiliary are also on tap. The American Hereford Auxiliary meeting will be held on Sunday, November 6, and the AHA's annual meeting on Monday, November 7.

Also included in the Hereford activities at the American Royal will be the special steer show, the junior heifer show, the Hereford pen bull show, and the futurity bull show, all scheduled for Sunday, November 6. On Monday, November 7, the Royal Claim Heifer Show and Sale is scheduled.

Further information about the Hereford activities and for room reservations can be received from the Department of Information, American Hereford Association, P.O. Box 4059, Kansas City, Mo., 64101, 816/842-3757.

Colorado Directs

Greeley, Sept. 9 (F-8) — Slaughter steers and heifers on a live basis closed about steady; carcass basis sales turned as much as 2.00 higher. Steers 4,900. Couple loads mostly choice, some prime 2-8 1285 lbs. 80.00; bulk choice 2-8, some 4 1050-1200 lbs. 89.00-89.75; others good to mostly choice 88.00-88.75. Carcass basis - modest share of the week's sales choice 1100-1150 lbs. 82.00-94.00 in-state; good to mostly choice Helatins 1525-1550 lbs. 88.00. Heifers 8,850. Most choice 2-8, some 4 850-1050 lbs. 86.75-88.00, closing 87.00-88.00; good to mostly choice 86.25-86.75. Carcass basis - bulk of the week's sales, choice

88.00-91.00 in-state, some late 92.00; others 2.00-3.00 over industry quotations the day of slaughter. Slaughter lambs on a live basis increasingly more active as buyers concentrated on western slope range lambs; prices fully steady to as much as 3.00 higher. Confirmed 20,500. Choice end prime spring lambs from western

slope range areas 80.00-88.00 delivered and weighed off trucks at frost point; packing plants; low loads weighed 52.50 delivered. Near 7,000 on turn-out, to be priced from the dress market after slaughter. Selenitis cannot reliably predict the thickness.

BASICS FIRST ...

The BASIC PRIORITY of Red Brangus bulls is to produce healthy calves averaging 70-75 pounds at birth.

... THEN, PERFORMANCE

Red Brangus bulls continually sire calves exhibiting vigorous growth plus quality yield grade beef on the rail.

RED BRANGUS

producing bulls with the BASICS in mind, PERFORMANCE on the rail.

Calves and yearling heifers are by our
senior herd sire JJ Dider Imperator 257.
He sells too; and what an opportunity. Pro-
ven, quality sire of the caliber are not
available every day. Sired by Jefcoat's JTW
449 and out of a Paret's Eagle daughter.

A-NEW-WAY-IN-RANCHING IN EAST TEXAS
BREEDER OF RED BRANGUS CATTLE
(The Big Red Muleys)
INVESTMENT OPPORTUNITY
Would you like to be in the cattle business? But, do not have the time, land, and/or equipment for an operation. A-NEW-WAY-IN-RANCHING, located in East Texas, offers a management program for the interested investor/breeder. Investor starts by purchasing 100% Red Angus, 2 to 5 years old, with F-1 Red Brangus calves. These can be bought from A-NEW-WAY-IN-RANCHING in a cow/calf unit, or units. We will furnish complete management service with full animal care all the way through marketing, on a per head, per year basis, with a 5-year contract.
This is an excellent opportunity for the professionals.
Please call after 5:00 P.M. or before 5:00 A.M. - 214/748-2271.

Box 535, Castroville, Texas 78009, phone 512/838-2288 or 512/838-2788.

Farm Safety Week Set Sept. 18-24

Austin - Protecting rural children and teaching them safety measures is the emphasis of National Farm Safety Week September 18-24, according to George R. Gustafson, Executive Vice President of the Texas Safety Association.

The 40th annual observance of rural safety has been proclaimed by President Ronald Reagan and is being sponsored by the National Safety Council and the U.S. Department of Agriculture.

Farm safety is a particular concern in Texas, where 100 persons lost their lives in farm accidents last year, according to Gustafson. The statistics are tabulated by the Texas Farm Bureau, based on data furnished by the Texas State Health Department. These records show that of the 100 deaths, most were related to tractors, firearms, drowning, electric current, and machinery, he said.

Safety leaders estimate that the incidence of these rural-type accidents is actually much greater than those numbers reported, he said.

Although farm fatalities are a major concern, farmers and ranchers should also be aware that up to 20,000 disabling injuries and up to 250,000 serious injuries requiring medical attention occur to Texas farmers and ranchers each year, according to Dr. Gary S. Nelson, Extension Specialist Safety Engineering, Texas A&M University and Texas Safety Association Vice President for Agriculture.

According to Nelson, "If you are a farmer or a rancher, the probability of experiencing a serious injury this year is 1 in 5."

Central States to Sell Baefmasters, Oct. 8

The Central States Beefmaster Breeders Association will hold their annual sale, Saturday, October 8 in Tulsa, OK. Sale time is set for 10 a.m.

Selling will be 90 lots including 40 bulls (including several head all prospects), and 50 females (three-in-ones, pairs, breeds and open heifers). All sale cattle will be selected by Thompson Cattle Marketing.

Sale headquarters is the Holiday Inn, 918/437-7880 and Anthony Mihalski will be the auctioneer.

For more information, contact: Thompson Cattle Marketing, 8803 Crownhill, Suite 92, San Antonio, TX 78208, 512/822-1680.
